4. CITIZENS TIME

It was brought up that the mobile home parks are billed by the city and should be maintained by the city with no cost to the township. Suggested we should explore information regarding how the billings are handled and confirm that the city kept those funds for future maintenance.

5. Discussion

Jeff Wingard from Fleis and Vandenbrink went over the report and answered questions regarding the feasibility study and the mapping of the forced mains. The two sewer related projects are nearly complete. Prices on the Plotter should be available within the next couple of weeks. We discussed computers and Captain Woodward provided estimates of costs for Fire Department computers. Jeff has provided us with a test that we can run on office computers to see if the current computers are capable of running the ARC GIS program. So that we can determine which of the computers we might need to replace in the office. Further information will be discussed at a later date before any purchasing is done. Jeff will attend the Board Meeting on May 11, 2017.

Trustee Johnson brought up that the city had offered the township ability to use their existing program so that we can see all of the maintenance requests and work orders.
